Technical Skills

- **Programming Languages**: Python, Fortran, C++, C, R, Julia, Shell scripting (Linux/macOS), Mathematica
- **Frameworks**: NumPy, Pandas, SciPy, Scikit-Learn, TensorFlow, OpenCV, PyMC, MDTraj, Matplotlib, Numba, Flask, ggplot2
- **Software & Tools**: Git, General Particle Tracer (GPT), GROMACS, LAMMPS, PyMol, ImageJ

Work Experience

- **Senior Intern - Modeling, Simulation and Data Science** Jun 2022 – Jun 2023
  Thermo Fisher Scientific Remote
  - ◇ Wrote Python scripts to automate milling, imaging, and data collection procedures on dual-beam FIB-SEM (focused ion beam - scanning electron microscope) systems.
  - ◇ Used Python computer vision libraries such as OpenCV and Skimage for image analysis on FIB-SEM images to measure machining tolerances, optical aberrations, and beam sharpness.
  - ◇ Contributed to a software tool (Python) for performing parallel General Particle Tracer (GPT) simulations Linux HPC environment, and for data preprocessing and analysis.
  - ◇ Developed statistical metrics to characterize performance for novel FIB column designs.
  - ◇ Developed Python code to optimize novel FIB column designs, resulting in up to 350% improvement in FIB performance for some applications.
  - ◇ Used Python libraries such as NumPy, SciPy, Pandas, Matplotlib, and Seaborn for data analysis, visualization, and presentation to a team of scientists in order to inform decisions on technology development.

- **Graduate Research Assistant - Computational Biophysics** Sep 2020 – Jun 2022
  University of Oregon Eugene, OR
  - ◇ Developed and validated coarse-grained models for biological macromolecules using molecular dynamics simulations, Monte-Carlo simulations, and stochastic differential equations.
  - ◇ Performed and analyzed molecular dynamics simulations using GROMACS and LAMMPS software on HPC clusters at San Diego Supercomputer Center.
  - ◇ Characterized performance and the degree of parallelism of molecular dynamics simulations to determine computational resources requirement on 128 Core/node HPC system.
  - ◇ Wrote code in Python and Fortran for statistical analysis of ∼10TB of simulation data.
  - ◇ Validated coarse-grained molecular models against predictions of statistical models such as principal component analysis (PCA) and time-lagged independent component analysis (t-ICA).
  - ◇ Mentored undergraduate and graduate research assistants on projects related to molecular coarse-graining schemes and simulation data analysis

- **Graduate Teaching Assistant** Mar 2022 - Jun 2022
  University of Oregon Eugene, OR
  - ◇ Instructed and graded coursework for undergraduate physics courses covering electricity and magnetism, circuitry, and Newtonian mechanics.

- **Library Student Assistant** Sep 2017 - Jun 2022
  University of Oregon Eugene, OR
  - ◇ Provided group tutoring and private tutoring for library patrons in math and science subjects including: elementary algebra, probability, statistics, discrete math, calculus, differential equations, linear algebra, partial differential equations, chemistry, and physics.
  - ◇ Trained library student employees on techniques for tutoring elementary and advanced mathematical topics and concepts.

Education

- **M.S., Physics, GPA: 3.92** Sep 2020 - Jun 2022
  University of Oregon Eugene, OR
- **B.S., Mathematics and Physics, GPA: 3.83** Sep 2016 - June 2020
  University of Oregon Eugene, OR

Accreditation

The University of Oregon is accredited by the Northwest Commission on Colleges and Universities.

Authenticity

An official University of Oregon transcript is printed on white security paper with a green background and a dark green border. The University seal appears in the center. Facsimiles of the University Registrar's signature and the University seal are printed at the bottom or on the reverse. If the transcript is photocopied, the word "void" will appear across the face. Attempts to alter the transcript using chemical agents will cause the paper to stain brown. A thermochromic ink square appears at the bottom of the page.

Academic records for students attending Fall 1986 and after are printed in portrait format (8½" x 11" vertical). Records prior to Fall 1986 are printed in landscape format (8½" x 11" horizontal). Some records of coursework taken prior to Fall 1986 may have been converted to the portrait format.

Separate transcripts are generated for each level: undergraduate, graduate, law. Students may request a partial transcript to include only a specific level.

In accordance with the recommendations of the American Association of Collegiate Registrars and Admissions Officers, all transcripts provided directly to the student, whether official or unofficial, will be marked "Issued to Student," or have other markings to clearly inform the receiver that the transcript has been personally handled by the student.

Degrees and Credit Awarded by other Institutions

Any information displayed reflecting degrees awarded by, or transfer work accepted from, other institutions should be verified with the original institution for accuracy.

Course Numbering System

001-099	Remedial courses which carry no credit toward a degree. Exceptions: MATH 095 and first-year foreign languages taken prior to Summer 1982.
100-299	Lower-division undergraduate credit. H designates Honors College courses.
300-399	Upper-division undergraduate credit. H designates Honors College courses.
400-499	Upper-division undergraduate credit H designates Honors College courses. Prior to Fall 1990, courses designated G or M carry graduate credit.
500-599	Graduate credit intended for graduate students; undergraduates may be enrolled in the same course when a corresponding 400-level section is being offered. Prior to Fall 1990, with designation P, professional courses suitable for graduate students holding a bachelor's degree in a field other than their graduate professional field.
600-699	Graduate credit: enrollment limited to graduate students only.
700-799	Graduate credit for graduate professional degrees only.

Courses numbered 198, 199, 399. 400-410, 500-510, 600-610 and 700-710 may be repeated in successive terms under the same number, with varying credits.
M designates multi-listed courses.

Student Classification

Student major and type appear with each term designation for students attending after Summer 1990.

Undergraduate (UG)	Graduate (GR)	Law (LW)	Non-Admit (NU, NG)
Freshman (0-44 credits)	Post Bacca!aureate	Unclassified	Unclassified
Sophomore (45-89 credits)	Pre-Masters	First Year	Community Education
Junior (90-134 credits)	Conditional-Masters	Second Year	Pre-Baccalaureate
Senior (135+ credits)	Masters	Third Year	
Post Bacca!aureate	Post-Masters	Master of Laws	
	Conditional Doctoral		
	Doctoral		
	Post-Doctoral		

Grading System

Grade	*Points*	*Definition*
A	4	Excellent
B	3	Good
C	2	Satisfactory
D	1	Inferior performance. Not used Fall 1970-Summer 1977. Law School use effective Fall 1978.
F	0	Unsatisfactory performance, no credit awarded. Not used Fall 1970-Summer 1977.
+ or -	-	Plus or minus 0.30 points, effective Fall 1990; Law School: plus 0.50 points, Fall 1990-Summer 1993.
P	-	Satisfactory: undergraduate work, C- or above; graduate work, B- or above; law work, D- or above.
N	-	Less than satisfactory performance, no credit awarded: undergraduate work, D+ or lower; graduate work, C+ or lower. Law work calculated as F (0 points) in the GPA.
AU	-	Audit, no credit awarded. Effective Fall 1990.
W	-	Officially withdrawn without penalty.
I	-	Incomplete; when the quality of work is satisfactory, but some minor yet essential requirement must be completed.
X	-	No grade reported by the instructor. Recorded by the Registrar.
Y	-	No basis for grade. Recorded by the instructor. Used through Summer 2017.

Credit

Undergraduate and graduate credits are recorded in quarter hours. Effective Fall 1973, Credit on Law-level records is recorded in semester hours. Credit earned at another institution and accepted by the University of Oregon is recorded in quarter hours.

Symbols used on the Transcript

Immediately following the grade:

*	Course offered P/N only. Restriction set by Curriculum Committee or academic department.
#	Following grade of N, course taken P/N. Used Fall 1970-Summer 1977.
D or E	Repetition, or remedial course carrying no credit. Excluded from term and cumulative GPA. +
G	Repeated course, excluded from cumulative GPA only. Effective Fall 2016. +
L	Repeated course, included in term and cumulative GPA. Effective Fall 2016. +
M	Regression, included in term and cumulative GPA. Effective through Summer 2016, also used to indicate repetition. +
R	Reserved for graduate credit. Effective through Summer 1990.

+ Credit is awarded only once for non-repeatable courses, and is not awarded for regression or coursework taken beyond catalog limitations. GPA exclusions apply only to graded (A-F) courses.

Immediately following the course title:

>1	Approved for Arts & Letters group. (Undergraduate degree requirement effective Fall 1982.)
>2	Approved for Social Science group. (Undergraduate degree requirement effective Fall 1982.)
>3	Approved for Science group. (Undergraduate degree requirement effective Fall 1982.)
>4	Approved for Science group and Math requirement. (Undergraduate degree requirement effective Fall 1983.)
>5	Approved for Math requirement. (Undergraduate degree requirement effective Fall 1983.)

Totals

Definitions: Ehrs, Earned hours; GPA-hrs, credits used in GPA calculation; Pts, quality points.
Academic Standing is indicated either in the comments section or as a notation following the term totals line.

Grade Point Average

The University of Oregon reinstated the GPA Fall 1990. No GPA is calculated for students last enrolled prior to Fall 1990.
The GPA is determined by dividing the total points by total GPA hours. Only UO work is used in calculating the GPA.
